BOOK SYNOPSIS

This drug reference provides quick access to information on more than 4500 commonly prescribed medications, listed in alphabetical order. Each drug monograph is divided into sections matched with colour icons so that readers can quickly locate the information they are looking for. The sections cover: action; indications; contraindications; route/dosage; interactions; lab test interferences; adverse reactions; precautions/warnings; administration/storage; assessment/interventions; and patient/family education. A colour identification section helps readers identify drugs by appearance. Coverage also includes: new FDA approvals; investigational and orphan drugs; and indications for labelled, unlabelled and orphan uses.
