BOOK SYNOPSIS

Deep cover specialist Marc Portman uncovers a secret deal that could make billions in oil revenue ... or topple two governments. Portman's latest assignment is providing back-up for a French intelligence agent sent to recover a hard drive from one of the most dangerous cities on the planet: Mogadishu in Somalia. What he hasn't been told is that the device records secret negotiations between two leading western nations and a hardline terrorist organisation responsible for killing thousands of innocent people. When the decision is taken to abandon the talks, anybody in the know immediately becomes a target to be silenced. And Portman finds himself at the top of the list...
